

# Advanced IDAPSY Software Training

Demag Service Training

**Advanced IDAPSY Training makes your technicians the experts. All Demag products with CANBUS technology use IDAPSY software for operation. Technicians learn advanced troubleshooting methods and learn how to maximize your customer's uptime.**

**Top 3 Reasons to Send Your Technicians:**

1. Help your tech maximize the uptime of your customers by understanding the software in Demag products
2. Learn to troubleshoot quickly and efficiently
3. Optimize customer's Demag crane systems learning how to make performance tweaks.

**New for 2019! No prerequisites necessary! Simply train your technicians and immediately become eligible to purchase your IDAPSY software license!**

**Exclusive offer for our April 8-11 class!  
You can take this class for free! Call 262-821-4006  
and ask to be registered at no cost\*!**
